Products

BLUE LIGHT TOWER

Our flagship design, delivering completely wireless, 24-7-365 operation, in all weather conditions, with both voice connectivity and a flashing strobe to assist responders in locating callers.

- » 10 gauge rolled steel housing is tamperproof and weatherproof
- » Zinc-rich primer and powder-coat finish protect against rust and corrosion
- » Illuminated front call panel for nighttime use
- » Integrates with optional Mass Notification Systems
- » Dusk to dawn area light
- » Optional Wireless Mass Notification
- » Optional multi-push buttons (allow for phone to call two distinct locations; for example, one button would call Police, the other Fire)

DIMENSIONS

Height	9.0 feet
Width	10.5 inches
Depth	8.0 inches
Weight	182 lbs including solar-powered battery

EPHONE

Ideal for areas with limited space, this full-featured emergency phone offers one-touch connectivity and a high-visibility blue strobe in places tower designs may not fit.

- » Stainless-steel housing is tamperproof and weatherproof
- » Brushed Stainless Steel finish resists rust, scratching, and other damage
- » Illuminated front call panel for night time use
- » Integrated faceplate camera
- » Optional multi-push buttons (allow for phone to call two distinct locations; for example, one button would call Police, the other Fire)

DIMENSIONS

Height	31.5 inches
Width	10.5 inches
Depth	8.0 inches
Weight	52 lbs including battery

LEXAN CALL BOX

Powered by the same communications technologies of our other call box solutions, this simple unit is one of our smallest, most compact designs created to fit practically any site or budget.

- » Snap-tight housing made from polycarbonate, weatherproof, impact-resistant, temperature-resistant Lexan material
- » Spring-loaded front door protects controls when not in use
- » Custom color options
- » Optional multi-push buttons (allow for phone to call two distinct locations; for example, one button would call Police, the other Fire)

DIMENSIONS

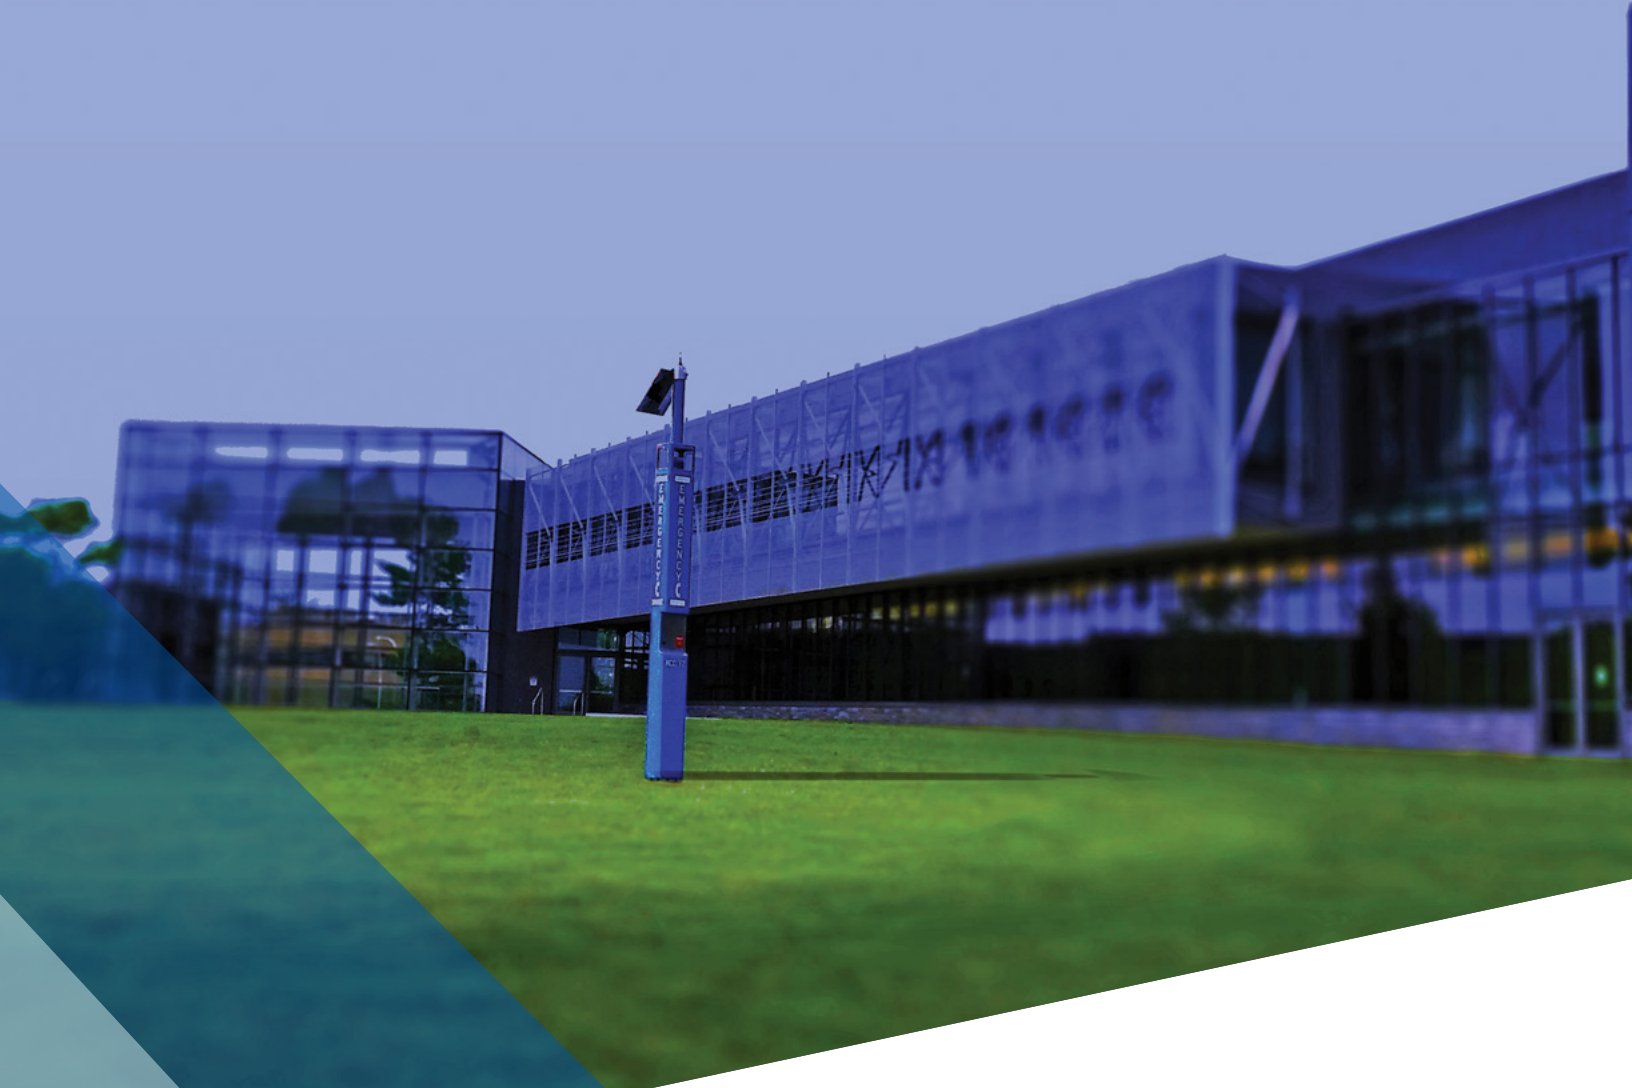

Height	19.6 inches
Width	15.3 inches
Depth	11.3 inches
Weight	47.4 lbs including battery

RETROFIT KIT

Upgrade Code Blue, Talk-A-Phone, Gaitronics and other blue-light-style phones to function with the latest technology.

- » Easy-to-install electronics package for legacy call box systems
 - » Faceplate with fully-integrated wiring and electronics
 - » 4G ready Voice & Data module
 - » Bright-blue LED strobe
 - » Battery back-up
 - » Optional multi-push buttons (allow for phone to call two distinct locations; for example, one button would call Police, the other Fire)
