All products are proudly designed, manufactured, and assembled 100% in the USA.

CASE Emergency Systems emergency phones and communication systems are ideal for sprawling military outposts. Equipped with solar power and 4G Ready calling, CASE's emergency technologies are well suited to provide coverage for vast areas in between stations.

Camp Pendleton

Marine Corps Base Hawaii

Only available on **Lexan Call Boxes**, the option for Iridium Satellite calling enables coverage of areas where cellular reception is not available. Designed to be robust and reliable, CASE Emergency Systems call boxes work when you need to them to.

Our **Blue Light Tower** is a highly visible and robust completely wireless 4G-ready solution with dusk-to-dawn lighting options and optional features such as solar power functionality, Mass Notification System and an Integrated Faceplate Camera.

With housing, dormitories, and public spaces such as hospitals, churches, and shopping centers serving the military community, the Blue Light Tower is ideal for enhancing public security anywhere where additional lighting and added safety and security are needed.

The **E-Phone** is a full-featured emergency wireless solution that is ideal for applications where communications must be mounted on a wall or post in areas such as parking lots and garages, airports, transit stations and college campuses. It comes equipped with one-touch connectivity, a high-visibility blue strobe, optional features, including multi-button dialing, Mass Notification System, and Faceplate Camera.
